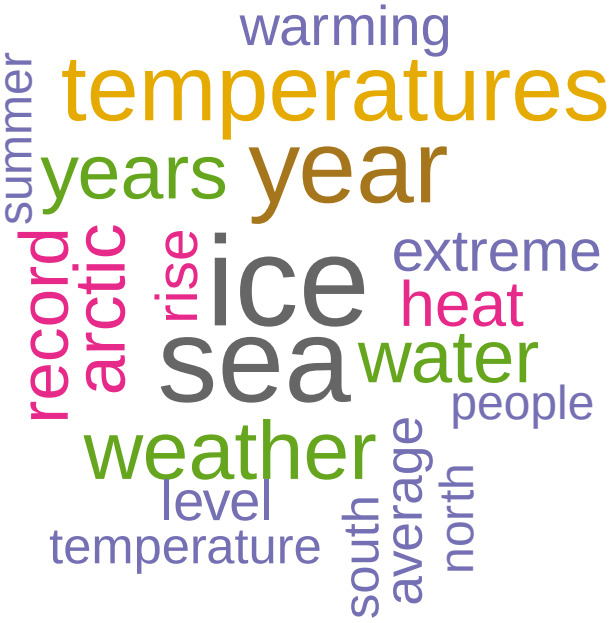
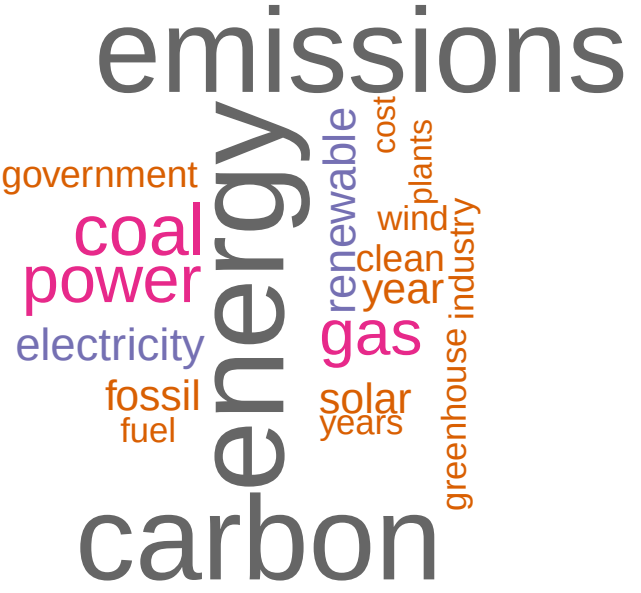
Topic 1



warming
temperatures
summer
years
year
record
arctic
rise
ice
extreme
heat
sea
water
people
weather
level
temperature
south
average
north

Topic 2



emissions
energy
carbon
government
coal
power
electricity
fossil
fuel
renewable
gas
solar
years
cost
plants
wind
clean
year
industry
greenhouse

Topic 3

pollution
industry
vehicles
car
city
bn
risks
cities
company
companies
public
fuel
financial
cars
electric
oil
fossil
business
year
air

Topic 4

bleaching
reef
fish
reefs
great
years
coral
year
forests
forest
water
found
barrier
farmers
marine
food
world
species
land
trees

Topic 5

reduction
abbott
labor
prime
coal
australian
government
australia
queensland
policy
environment
target
national
energy
party
emissions
minister
turnbull
federal
coalition

Topic 6

scientists
warming
global
science
research
published
paper
years
data
scientific
carbon
temperature
atmosphere
study
human
earth
world
university
found
evidence

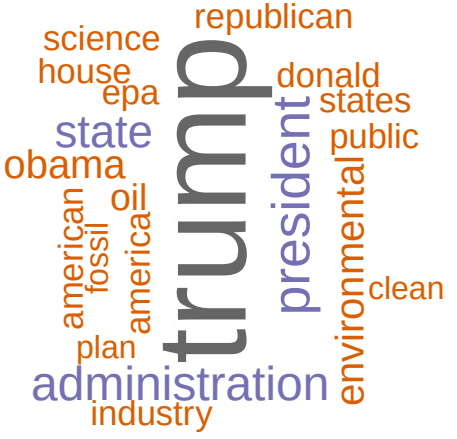
Topic 7

development
deal
action
international
leaders
warming
emissions
paris
people
china
world
countries
economic
governments
nations
country
global
eu
agreement
report

Topic 8

movement
extinction
time
university
guardian
letters
government
action
uk
group
green
protest
people
school
london
children
young
britain
brexit
strike
students

Topic 9



republican
science
house
epa
donald
states
state
public
obama
oil
american
fossil
america
trump
president
environmental
clean
plan
administration
industry

Topic 10

women
political
day
time
planet
make
years
future
life
people
world
work
feel
back
good
human
things
live
children
social
